CAREER OBJECTIVE

Python Developer with 2 years of experience in building scalable automation tools across healthcare and finance domains. Successfully automated claim processing workflows for 3+ major healthcare portals (BCBS Texas, NJ Health, Wellcare) using Selenium, improving accuracy and reducing manual effort by over 70%. Experienced in automating e-filing workflows for income tax returns, including XML upload automation for government portals. Working knowledge of Flask and Django with hands-on practice in building REST APIs and admin panels for automation and reporting use cases.

PROFESSIONAL EXPERIENCE

TNBT Group (Rutul Shah & Co LLP)

11/2024 – Present

Python Developer

Ahmedabad

Income Tax Filing Automation (15CB XML – Chartered Firm)

- Automated 15CB XML file generation, compression, and upload to Income Tax portals using Python.
- Created a complete workflow for downloading client data, creating XMLs, and compressing them into ZIPs for e-filing.
- Enhanced operational efficiency and eliminated manual file handling.
- **Tech Used: Python, zipfile, Selenium, OS module**

Excel Automation Tools for FMCG Clients (Adani, HCCB, Reliance, Nivea)

- Developed dynamic Excel-based automation tools for inventory, dispatch, and reporting processes.
- Implemented automated formatting, data population, sign-off section preservation, and formula retention.
- Reduced report generation time by 60% and improved data consistency.
- **Tech Used: Python, openpyxl, pandas, Tkinter, PySide6**

Oracle ERP GUI Automation (Avery Dennison)

- Automated repetitive form-filling and validation workflows inside Oracle ERP using image-based scripting.
- Used GUI automation (PyAutoGUI) to identify and interact with form elements.
- Boosted accuracy and eliminated manual data entry errors in ERP processes.
- **Tech Used: Python, PyAutoGUI, OCR (pytesseract)**

Qubeta Techno Lab (for Integrity Healthcare Solutions Pvt Ltd)

03/2024 – 07/2024

Python Developer

Ahmedabad

- Developed Python automation solutions for healthcare claims processing, reducing manual effort by 70% and improving data accuracy.
- Created Selenium-based data extraction tools for BCBS Texas, NJ Health, and Wellcare claims portals.
- Automated data extraction from web portals and stored results in Excel spreadsheets for reporting.

- Debugged and resolved issues in the automation scripts, ensuring smooth data processing and accurate outputs.
- Automated PDF generation and file management for claims documentation, ensuring compliance with healthcare record-keeping requirements.
- Implemented comprehensive error handling and logging systems for reliable operation.
- **Tech Stack:** Python, Selenium WebDriver, PySide6/Qt, BeautifulSoup, pandas, openpyxl, logging, JSON, Tkinter

Advarisk 

05/2023 – 12/2023

Junior Python Developer

Pune, Maharashtra

- Automated hourly Zulip notifications for scraping metrics using **Python3** and **Prefect**.
- Oversaw scraping tasks to ensure data accuracy.
- Identified and reported bugs for continuous improvement.
- Proficient in web scraping land records from state government sites.
- **Technologies:** Python3, Django, MongoDB, BeautifulSoup, Requests.

TECHNICAL SKILLS

Programming Languages : Python, Javascript(Basic), HTML, CSS

Frameworks & Libraries : Django, Flask, Selenium WebDriver, BeautifulSoup, Pandas, Numpy

Databases : MySQL, MongoDB

Development Tools : Visual Studio Code, Git & GitHub, Chrome DevTools, Debugging tools (ipdb, pdb)

Operating Systems : Windows, Linux

EDUCATION

Maharishi University of Information Technology 

2018 – 2022

B.Tech (Computer Science and Engineering)

Noida, Uttar Pradesh

Percentage: 75%

K. R. BOSE SMARAK COLLEGE 

2015 – 2017

Intermediate (Science)

Muzaffarpur, Bihar

Percentage: 60%

SOFT SKILLS

- Adaptability
- Problem Solving
- Teamwork
- Time Management

LANGUAGES

English

Hindi
